TIDEWATER BOARDMAN TERMINAL

Located in the Port of Morrow, Tidewater's Boardman Terminal houses a container facility equipped to handle both dry and refrigerated containers for import, export, and solid waste transport. The Terminal annually handles more than 24,000 containers to and from barge and truck and is the largest container terminal upriver of Portland. Project cargo is also handled through the terminal. Existing liquid product pipeline can load and unload (with modification), and can be expanded to accommodate additional customers and products.

The Boardman terminal offers easy access to Interstates I-84 and I-82.
